### Operating Notes:

- Supervision ratio is 1 instructor to 1 class plus one additional instructor nearby. There is no requirement for an additional adult.
- Instructor to be trained to in-house syllabus. Refresher training as directed by session observations.
- Pond dipping is usually done in the purpose-built pond area which has a platform and shelter

**Risk – Benefit Statement:** Learning how to stay safe around bodies of water and be inspired by this habitat and its’ amazing creatures.

Hazard Description and activities giving rise to risk	Who may be harmed	Control Measures	Risk Rating
Water borne diseases <b>Contact with pond water</b>	Participants	<ul style="list-style-type: none"> <li>● Pupils told not to put their hands in their mouths</li> <li>● Pupils told to wash their hands with warm soapy water after dipping</li> <li>● People with open cuts or sores on hands or arms told to observe and identify but not come into contact with pond water</li> </ul>	low

<b>Crossing the Haul Road</b>		<ul style="list-style-type: none"><li>• The haul road is used by sand lorries and heavy plant machinery going to the working sand quarry. Instructors will stop pupils at a safe distance before the road. Listen and look for vehicles and escort pupils across whilst standing themselves in the middle of the road. High vis tabards are available on request.</li><li>• Instructors will use the safe crossing places</li><li>• Although traffic is infrequent on this road it is big and in dry weather creates a cloud of dust so stand well back from any traffic</li></ul>
