### Risk Assessment – Make a River

Produced By:	N Senior	Date of Issue:	11/2/19	Review Date:	1/9/24
--------------	----------	----------------	---------	--------------	--------

#### Operating Notes:

- Supervision ratio is 1 instructor to 1 class plus one additional instructor nearby. There is no requirement for an additional adult.
- Instructor to be trained to in-house syllabus. Refresher training as directed by session observations.
- The instructor check booking form and ask if any pupils have a physical disability or poor balance and adjust their activities accordingly

**Risk – Benefit Statement:** Pupils are learning the importance of having access to treated water for health and hygiene. Carrying large bottles of water, a moderate distance reminds us how lucky we are to have clean water on tap. The thrill of balancing and tipping the water down the gulley makes a special memory and an impact on learning.

Hazard Description and activities giving rise to risk	Who may be harmed	Control Measures	Risk Rating
Slips, trips, falls. Public & dogs Walking on the reserve	Participants	<ul style="list-style-type: none"> <li>• Instructor leads the way, pupils walk behind, with member of staff at end of line</li> <li>• Pupils told not to talk to public</li> <li>• Pupils told not to stroke dogs, we stand still &amp; wait for owner to put dog on lead</li> <li>• Groups of pupils assigned an adult to stay in sight of at all times</li> <li>• Pupils observing at bottom of gulley to be supervised and kept together</li> </ul>	low
Carrying bottles of rain water	Participants	<ul style="list-style-type: none"> <li>• Pupils are expected to carry two heavy bottles of rain water. School staff please inform the instructor if any pupil has a physical disability or</li> </ul>
